

Tangens Whippets

For Tangens alumni and friends

White Winter in Sweden

The dogs like the snow much more than I do, but they don't have to shovel it!

I have become a member of the Swedish Whippet club. With that comes a beautiful quarterly newsletter – or more like a book. In a recent issue called “The Male Special” were photos of about 125 males. This one called my attention: *Play A While Bang Bit For Bit*.

And his sire is *Tangens the Maverick Cosmonaut* from my 2007 litter!!! The litter in Sweden was produced by AI with imported frozen semen from Iva Kimmelman, his owner.

The high cost of making a newsletter:

I have been “fined” \$750 by the company PicRights for using a copy-righted photo in an earlier newsletter.

How are your Whippets doing?
Please stay in touch ❤️

Spring is coming!
