## **Double Happiness**

Three puppies from the latest litter were lucky to join families who already have a Whippet.

*Tangens Shall We Dance, "Belle" now lives with "Dobbie" (Tangens Power Of Atoms; litter 06).*

*Tangens The Music Man, "Milo", joined a family with an older Whippet, "Sting". Although Sting*

is not closely related, he resembles Milo's father Triton a lot.

*Tangens I Feel Pretty, "Sadie" now lives with her cousin Tangens Sabrina (litter 08).*

## **Like Father, Like Son**

*"Riley" FC Tangens Riley Outback Runner FCh, MC, OTR, SR, CGC in perfect sync with his son "Bob" Tangens Fly Me To The Moon while lure coursing. Both father and son had a very successful coursing and racing weekend with Riley adding two titles to his name and Bob going Best Of Breed one day. Many thanks to the dogs' owners, who let them have so much fun.*

### **Conformation shows**

Whippets love chasing anything that moves, including white plastic bags in lure coursing. But they also love going to conformation shows where there is little obvious entertainment for a dog – more for the competitive owner or handler. A recent evening, when I had dressed up to go out to an event, “Triton”, *Tangens Triton X-100* got very excited, because he thought I had dressed up to go to a dog show with him!

I am glad that Triton is so happy going to shows, and he has been doing quite well recently. He just got his third major win from the Bred By Exhibitor class.

*Tangens Moonshine for Maverick of GP*, “Skyy” (litter 07) had also a major win in conformation at a show in Northern California.

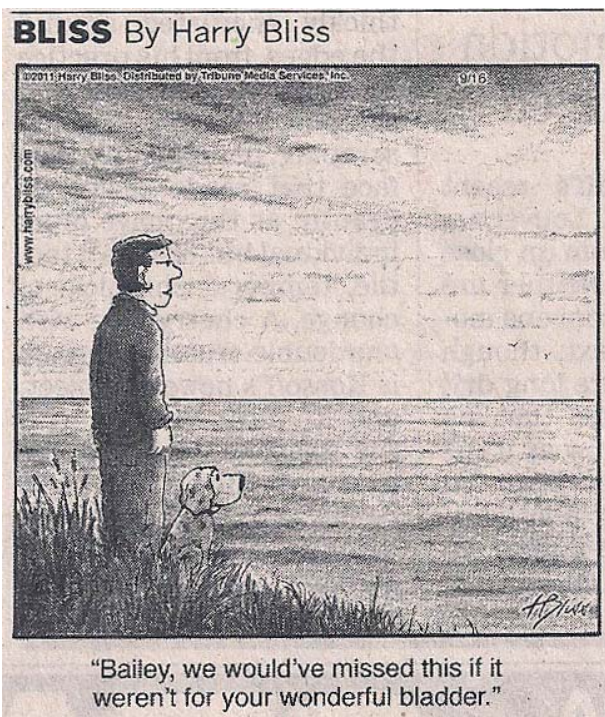

### **Maverick, the traveling Whippet**
